The history of Belgium, as an independent country, only began in 1830. Before that, the territory of Belgium was constantly invaded, occupied and led by different peoples: Spanish, Austrians, French, Dutch,...

Belgium's independence was proclaimed on October 4, 1830 and was officially recognized by other states on January 20, 1831.

Our country consists of three regions: the Flemish, Walloon and Brussels region. It also has 3 linguistic communities : German, French and Dutch speaking. Each has its own government, headed by the federal government.

It's a small country but Belgium hides art treasures, offers a great diversity of landscapes and its gastronomy cannot be surpassed. Sports, entertainment and literature do also play an important role. Many Belgians have distinguished themselves in all fields.

You will have the opportunity to stay and visit :
Liège, province of Namur, Strépy-Thieu and to discover **Flanders**.

If you wish to continue your journey in Belgium, the two Belgian leagues have joined forces to prepare a list of service and parking areas for you. You will also receive a catalogue of tourist attractions in our beautiful country.
